

BATHROOM SAFETY

Product Name	Max Capacity	Item No.	HCPCS
Folding Bedside Commodes	350 lbs	10370	ED163
Elongated Folding Bedside Commodes	350 lbs	10373	ED163
Drop Arm Folding Commode	300 lbs	10376	ED166

Product Features

Three-in-one design allows for use as a commode, raised toilet seat, or toilet safety frame over your current toilet. Height can be adjusted in 1-inch increments for raising or lowering the chair height to specific patient needs. Durable grey powder coated steel with welded construction features a tool-free set-up that easily opens and folds flat, and can support patients up to 350 lbs. Includes durable plastic snap-on seat with lid, drop-in bucket with handle, splashguard, plastic armrests for added comfort and removable back.

Product Name	Max Capacity	Item No.	HCPCS
Extra wide 3 in 1 Commode	450 lbs	M450	ED168
Extra wide Drop Arm Commode	450 lbs	M470	ED168
Bariatric Folding Bedside Commodes	650 lbs	10374	ED168

Product Features

Heavy duty polyester coated steel frame
Welded construction for better stability
Toilet seat with cover
Plastic bucket with cover and splashguard
Height adjusts in 1" increments
Waterfall armrests for extra comfort

Product Name	Max Capacity	Item No.	HCPCS
Bariatric Drop Arm Commode	700 lbs	M500	ED168
Bariatric Folding Bedside Commode, Drop Arm	1,000 lbs	10375	ED168

Product Features

Welded Polyester coated steel frame construction
Extra wide snap-on seat with cover
Hygienic seat opening
Plastic bucket with cover and splashguard
Height adjust in 1" increments
Blow model armrests for extra comfort
Use at bedside, acts as toilet safety frame or raised toilet seat

Drop arm mechanism is easy to operate.

Effortless single button release mechanism located in the middle of the walker is easy to reach from a sitting position. It requires minimal effort to open or close the walker.

MATTRESSES

Product Name	Max Capacity	Item No.	HCPCS
Dynarest Airfloat Plus Bariatric Air Mattress with Pump - 42" x 80"	1,000 lbs	10445	E0277
Dynarest Airfloat Plus Bariatric Air Mattress with Pump - 48" x 80"	1,000 lbs	10446	E0277

Product Features

Alternating pressure mattress replacement system
 10 air cells with Cell-on-cell technology allows mattress to remain partially inflated in case of power loss
 18 laser holes provide low air loss and keeps the patient cool and dry
 Easy to use digital display allows for 10, 15, 20 and 25-minute cycle time, comfort and therapy adjustments to be selected
 The system has 3 modes: Alternating cycles, static mode and seat function
 In Case of low pressure, an indicator will illuminate on the pump
 In Case of low pressure, an indicator will illuminate and an audible alarm will sound
 Adjustable hanging brackets
 CPR Valve allows for rapid deflation

Product Name	Max Capacity	Item No.	HCPCS
Alternating Pressure Pump & Mattress System	350 lbs	AAP501	E0372

Product Features

Controls pressure, moisture, shear, and friction that could create pressure ulcers
 Can easily secure onto a standard mattress
 Vapor permeable top cover uses Aegis for extra odor control, is machine washable
 Buckle down top cover for easy removal
 Quiet, dependable air controller unit provides hours of trouble free operation
 Vinyl covering on air tube
 Carrying bag
 Optional fast filling air pump
 CPR Valve allows for rapid deflation

Product Name	Max Capacity	Item No.	HCPCS
8" Low Air Loss / Alternating Pressure Mattress - 36" x 80"	600 lbs	ALM831T	E0277
Bariatric 8" Low Air Loss / Alternating Pressure Mattress - 42" x 80"	600 lbs	ALM842T	E0277

Product Features

Controls pressure, moisture, shear, and friction that could create pressure ulcers
 Dual bladder design prevents patients from bottoming out, while sitting up and will maintain air during power outages
 Use as a replacement of a standard mattress
 Adjustable anchor straps secure mattress to bed frame
 Vapor permeable top cover uses Aegis for extra odor control, is machine washable
 Multi-direction stretch fabric is zipper on, it is easy to remove for washing
 Total of 40 laser pin holes that provides low air loss and transfers moisture from patient skin
 Quiet, dependable air controller unit provides hours of trouble free operation
 Key locking symbol function once illuminated allows attendant to lock out all adjustment setting on the pump
 Air Controller unit can operate in static or alternating mode
 Alternating modes are adjustable in 4 timing selections, from 5, 10, 15, to 20 mins
 Vinyl covering on air tube
 Optional fast filling air blower

Product Name	Max Capacity	Item No.	HCPCS
8" True Low Air Loss / Alternating Pressure Mattress System - 36" x 80"	350 lbs	ALX832	
Bariatric 8" True Low Air Loss / Alternating Pressure Mattress System - 42" x 80"	600 lbs	ALX852	

Product Features

Specially designed for supporting large patients
 Controls pressure, moisture, shear and friction, for prevention and treatment of stages I-IV Pressure sore ulcer
 Use as a replacement of a standard mattress
 2" eggshell foam base prevents patient from bottoming out during power outages.
 Vapor permeable top cover is machine washable
 Buckle down top cover for easy removal
 Fast filling high volume blower based air controller unit
 Key locking symbol function once illuminated allows attendant to lock out all adjustment setting on the pump
 Comes with low pressure and power failure alarms
 Air controller can operate in static or alternate in 5, 10, 15 and 20 mins mode
 Reliable air controller unit provides hours of trouble free operation

Digital Monitor based pump is controlled by a microprocessor which allows the caregiver to control air flow for the entire system.

Emergency CPR valve is located at the pump and mattress connection, for rapid deflation in case of medical emergencies.

Mattress has 2" eggshell foam base, that prevents the patient from bottoming out during power outages.

MATTRESSES

Product Name	Max Capacity	Item No.	HCPCS

Deluxe Bariatric Pressure Reduction Mattress - 60" x 80"	600 lbs	T717F	E0184

Product Features

High quality dense foam for firm support
Water resistant nylon over with ventilating holes
Pressure reducing convoluted foam topper on one side
Easy removal zippered cover for washing
Comfortable firmness throughout
Durable construction designed for long term use
Fire Retardant

Product Name	Max Capacity	Item No.	HCPCS
Foam Mattress Compact - 36" x 80"	350 lbs	TG10	E0185
Deluxe Bariatric Pressure Reduction Mattress - 42" x 80"	600 lbs	TG35	E0185
Deluxe Bariatric Pressure Reduction Mattress - 48" x 80"	800 lbs	TG40	E0185
Deluxe Bariatric Pressure Reduction Mattress - 54" x 80"	1,000 lbs	TG50	E0185
Deluxe Bariatric Pressure Reduction Mattress - 60" x 80"	1,000 lbs	TG60	E0185

Product Features

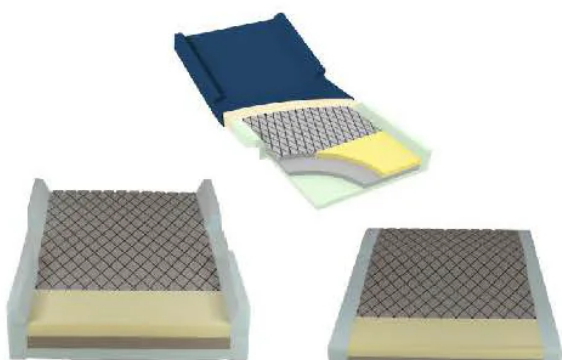

Ideal Medicare Part B Group 1 support surface product
Fire Retardant product
Low Shear nylon/vinyl replaceable cover
1.25" Pinpoint high density polyurethane foam topper
Three oversized 2" gel sections
1" high density polyurethane foam base

Product Name	Max Capacity	Item No.	HCPCS
Multi Foam Pressure Mattress - 36" x 80"	350 lbs	10420	E0184
Multi Foam Pressure Mattress with Perimeter - 36" x 80"	350 lbs	10420P	E0184

Product Features

Multi-Zone Foam Pressure Mattress
Horizontal precision-cut high-density foam with pressure redistribution zones
Features non-skid bottom for added security
Includes removable, fluid-resistant, vapor-permeable cover with anti-contamination zipper
Equipped with fire sock to meet Flame Retardant CFR 1632 and CFR 1633 standards

Product Name	Max Capacity	Item No.	HCPCS
Deluxe Tri-Layer Foam Mattress - 36" x 76"	350 lbs	10421	E0184
Deluxe Tri-Layer Foam Mattress - 36" x 80"	350 lbs	10422	E0184
Deluxe Tri-Layer Foam Mattress - 36" x 84"	350 lbs	10423	E0184
Deluxe Tri-Layer Foam Mattress with Perimeter - 36" x 80"	350 lbs	10423	E0184

Product Features

Constructed from three layers of variable density foam
Top layer features precision diamond die cuts and memory foam heel zone
Includes removable, fluid-resistant, 4-way stretch cover with anti-contamination zipper
Equipped with fire sock to meet Flame Retardant CFR 1632 and CFR 1633 standards

HOME CARE BEDS

Product Name	Max Capacity	Item No.	HCP/CS
High/Low Full Electric Bed 36" x 80"	450 lb	T3000F/H	E0297

Product Features

Welded angle steel construction with reinforced corner plates provide maximum stability
Reinforced head and foot frame provides maximum bed strength and support
Two piece split-grind design is easy to use, set up and operate
3 function patient hand control allows for head, foot, and height position
New bed end panels are more resistant to impact and scratching
UL approved low voltage DC electronic system provides quiet and smooth operation
In case of power failure an emergency crank can be attached to operate the bed manually

Product Name	Max Capacity	Item No.	HCP/CS
Heavy Duty Bariatric Bed - 42" x 80"	600 lb	T4000F/H	E0808

Product Features

Welded angle steel construction with reinforced corner plates provide maximum stability
Rectangle steel bed surface provides maximum bed strength and support
Two piece split-grind design is easy to use, set up and operate
New bed end panels are more resistant to impact and scratching
5" swivel, locking casters provide increased security
UL approved low voltage DC electronic system provides quiet and smooth operation
In case of power failure an emergency crank can be attached to operate the bed manually

Product Name	Max Capacity	Item No.	HCP/CS
Homecare Bariatric Full Elec. Bed - 42"	600 lb.	10908	E0808
Homecare Bariatric Full Elec. Bed - 48"	750 lb.	10911	E0804

Product Features

All steel heavy-duty frame provides strength and durability
Panel deck with a split frame design is easy to set up for home use
Fully removable motor & electronics
3 function patient hand control allows for head, foot, and height position
Tool-free installation
Comes with emergency hand crank

Product Name	Max Capacity	Item No.	HCP/CS
Bariatric Wide Size Bed 48" x 88"	1,000 lbs	T5048HX	E0804
Bariatric Full Size Bed 54" x 88"	1,000 lbs	T5054HX	E0804
Bariatric Full Size Bed 60" x 88"	1,000 lbs	T5060HX	E0804

Product Features

Welded angle steel construction with reinforced corner plates provide maximum stability
Aluminum alloy bed surface has the same strength but weight 30% less
Two piece split-grind design is easy to use, set up and operate
Heavy duty 6" swivel, locking casters provide increased security
Trendelburg, reverse trend position can be easily achieved with optional hand control pendant
UL Approved AC electronic system provides quiet and smooth operation

Product Name	Max Capacity	Item No.	HCP/CS
5 Function Bariatric Wide Size Bed 48" x 88"	1,000 lbs	T5248HX	E0804
5 Function Bariatric Full Size Bed 54" x 88"	1,000 lbs	T5254HX	E0804
5 Function Bariatric Full Size Bed 60" x 88"	1,000 lbs	T5260HX	E0804

Product Features

Welded angle steel construction with reinforced corner plates provide maximum stability
Aluminum alloy bed surface has the same strength but weight 30% less
Two piece split-grind design is easy to use, set up and operate
Premier DC motors provide quiet and smooth operation, synchronized control system keeps bed level for resident comfort and positioning
Five-function hand pendant comes standard and allows the bed to be positioned in Trendelburg, reverse Trendelburg and chair position
Heavy duty 6" swivel, locking casters provide increased security
Trendelburg, reverse trend position can be easily achieved with optional hand control pendant
UL approved low voltage DC electronic system provides quiet and smooth operation
In case of power failure an emergency crank can be attached to operate the bed manually

HOME CARE BEDS

Product Name	Max Capacity	Item No.	HCPCS
Homecare Semi Electric Bed - 36"	450 lb	10904	E0260
Home Care Full Electric Bed - 36"	450 lb	10900	E0265
Home Care Full Electric - 3 Motor - 36"	450 lb	10983	TBA

Product Features

All Steel heavy-duty frame provides strength and durability
Spring deck with split frame design is easy to set-up for home use
Fully removable motor & electronics
3 function patient hand control allows for head, foot, and height position
Comes with emergency hand crank

Product Name	Max Capacity	Item No.	HCPCS
3 Position Manual Bed - 36" x 80"	450 lb	T1500F/H	E0291

Product Features

Welded angel steel construction with reinforced corner plates provide maximum stability
Reinforced head and foot frame provides maximum bed strength and support
Two piece split-grid design is easy to use, set up and operate
3 function patient hand control allows for head, foot, and height position
3" swivel, locking casters

Product Name	Max Capacity	Item No.	HCPCS
3 Position Semi Electric Bed - 36" x 80"	450 lb	T2510F/H	E0295

Product Features

Welded angel steel construction with reinforced corner plates provide maximum stability
Reinforced head and foot frame provides maximum bed strength and support
Two piece split-grid design is easy to use, set up and operate
3 function patient hand control allows for head, foot, and height position
3" swivel, locking casters
UL approved low voltage DC electronic system provides, quiet and smooth operation
In case of power failure a backup 9 volt battery can lower the bed up to nine times

Product Name	Max Capacity	Item No.	HCPCS
Hi / Low Manual Bed 36" x 80"	450 lb	T1000F/H	E0293

Product Features

Welded angel steel construction with reinforced corner plates provide maximum stability
Reinforced head and foot frame provides maximum bed strength and support
Two piece split-grid design is easy to use, set up and operate
New bed end panels are more resistant to impact and scratching
3" swivel, locking casters
